Failsafe - Automatic Return Farah Capacitors Control Circuit Fully Open Signal Fully Closed Signal Signal Common External

Power ON motor actuates valve into powered position and then automatically powers off. Valve stays in powered position.

Power OFF motor actuates valve back to start position using reserve

power. Valve stays in start position. Position Feed Back: Green Open, Yellow Closed, White Common

3 Wire Control

Power ON to GREEN motor actuates valve into powered position and then automatically powers off. Valve stays in powered position.

Power OFF to GREEN motor actuates valve back to start position and then automatically powers off. Valve stays in start position.

Position Feedback: Blue & Grey Open, Yellow & White Closed
